“WE MAKE A LIVING BY WHAT WE GET, BUT WE MAKE A LIFE BY
WHAT WE GIVE”

-WINSTON CHURCHILL

Background

IRC group & Sanskriti International a Free Education Society have scaled up the joint initiative to provide free yet holistic education to underprivileged children. With a humble beginning with two children in 2001, this year the number has touched hundreds. There was a period; parents and community were reluctant to send their children to school. In the majority of the cases, the children were the first generation learners in their respective families. Eventually, charisma of quality teaching spread far & wide. The surge in the number of needy and chiefly illiterate parents bringing their children for tutoring made Sanskriti International expand its capability. The goal for succeeding years is to impart free & good quality education to more and more underprivileged children.
